Hi,

another year has gone by and all my good intentions to keep in contact more often didn't materialize.

after rereading a lot of the material you gave me and from my own collections and recollections, plus a few conversations with some oldtimers now in posture, I have come to the conclusion that the Company and FBI let JFK get killed.

Hope all is well with you and Lil and that she can make sense of the new tax forms.

Have a good year!

Lonnie
